

## Summer Reading for Rising 8<sup>th</sup> graders

After reading one of the nonfiction books from the Summer Reading list, choose one of the main characters from the book and create a Facebook page using the template provided on the back of these directions.

- An electronic version of the template using Publisher or Word is also available on the Jones homepage under “Summer Reading.”
  - If you do not have a computer available, you may create the Facebook page by hand.
1. **Page 1 / Wall Page** – Include the following sections:
    - a. **Picture** of your actual person. If you cannot find his or her actual picture, that is okay.
    - b. **Update status**
    - c. **Conversations** with characters from book. (min. of 3)
    - d. **Place of residence**
    - e. **Birthday**
    - f. **Friends** – insert names and pictures (min. of 3)
    - g. **Photos** – of at least 2 experiences in the book
  2. **Page 2 / Info Page** - The status and the information from Page 1 on the left sidebar will remain the same. Add the following sections: (may require some research)
    - a. **Basic Information**- example on the template
    - b. **Personal Information**- You may not know this, but be creative. Based on what you read about your person, what do you think would be his/her favorite activity, music, etc.?
    - c. **Education and Work**
    - d. **Groups** - What groups would your person belong to?

Have fun with this and be creative, but try and make this information as accurate as possible. You did read about a real person.
